EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 32, line 4, the word -- the -- has been inserted after the word "of" (second occurrence).

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims **21-23, 25-29 and 35** define over the prior art of record because the prior art does not teach or suggest a method comprising electroplating as presently claimed, esp., wherein the solution comprises a polyethyleneglycol alkyl-3-sulfopropyl diether.

Claims **30-32** define over the prior art of record because the prior art does not teach or suggest a method comprising the step of electroplating as presently claimed, esp., wherein the bath includes between approximately 1 and 2 grams per liter of one or more polyethyleneglycol alkyl-3-sulfopropyl diethers.

The prior art does not contain any language that teaches or suggests the above. *Kurze et al.* teaches polyethyleneglycol naphthyl-3-sulfopropyl diether compounds. A naphthyl is not the same as an alkyl.

Therefore, a person skilled in the art would not have been motivated to adopt the above conditions, and a prima facie case of obviousness cannot be established.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
